

Kathryn School is peanut aware!

Our plan creates awareness, with all of our stakeholders, of allergies, anaphylaxis and the seriousness of these types of allergies. We ask that all students refrain from bringing peanut products to the school such as peanut butter, crackers with peanut butter, any candy that may have peanuts in them and of course peanuts themselves. We also ask that if students accidentally bring one of these products to school that they bring it to the attention of an adult as soon as possible and please don't try to hide it.

Our awareness plan is not about punishment and consequences but about cooperation and communication to create a safe environment for all.

Thank you in advance for your participation.
