Parent Session Offering

Community Education Service is offering a parent session called “From Finsta to FOMO: Understanding Social Media Use in Teens” on March 14 from 6:30-8:30 via online. Please see the attached flyer for more information.

Child Development Advisor (CDA), Ms. Ludwig

Do you worry about how to help your child make smart, safe choices on social media? Unfortunately, today tweens and teens can just tap a few buttons and share their photos, videos, and thoughts with thousands of strangers. How can you help your kids safely and responsibly navigate a digital world we couldn't have imagined at their age?

First, remember that **it's natural for tweens and teens to crave independence.**

Snooping through your child's phone or social media accounts can feel like an invasion of privacy. Rules they don't understand can feel controlling, like an attempt to take away their growing independence.

Second, **consider co-creating a social media contract.**

Talk about why it's important for them to protect their reputation and privacy on social media. Then, come up with a list of agreements.

Here are some things you can include in your contract:

- 👉 Your child may promise to use privacy settings and never “friend” strangers.
- 👉 They can also pledge to be kind and think twice. Would they be okay with their grandma seeing the post? A college admissions counselor or future boss?
- 👉 You can promise to model responsible online behavior. (And to never comment “It feels like just yesterday that I was changing your diapers!” on their Instagram photos.)

Check out the attached Social Media Contract and update it to fit your family.
